

## INTRODUCING THE NEXT GENERATION OF VOICE COMMUNICATIONS.

**IntuitiveVoIP** has answered the call for a better VoIP provider experience. Offering a direct connection to the VoIP backbone our service redirects your voice stream directly to the backbone provider, this guarantees the best possible VoIP call experience.

The **IntuitiveVoIP** network features world-class engineering and a Super-POP architecture that minimizes use of the public Internet and places your VoIP calls just one hop away from most major Internet backbone carriers.

Our **IntuitiveVoIP** phone service is the first in the industry to build intelligence right into the solution. We analyze real-time network and voice quality data to deliver your calls through the optimum path to deliver superb audio quality.

Good communication with customers and suppliers is critical. Let us make it your reality. Don't be left behind by the evolution of telephony through the power of Voice over Internet Protocol. Contact Intuitive Technology for a free quote of **IntuitiveVoIP** today.
